To whom it may concern

My name is Leah Jamieson and I work at Sherburn High School as the Head of Department for Design Technology & Art. Each year we welcome new classes of eager and bright students who wish to eventually pursue careers in the creative industries. We work hard to make sure we provide amazing learning opportunities and engaging events to bring our school's community together and support them in attaining these careers.

However, due to our school's budgetary constraints, we continue to struggle to always provide the best resources and materials. While we strive to offer our students the best education possible, we need the resources and supplies to support this. We would like to ask that you might be able to help us by donating any of the various items listed -
